

RHINO CC Coupler - Compression Coupler

The CC Series of coupler is designed for use on compression only splices in steel reinforced concrete projects. The system is designed to allow compressive loads to be transferred by aligning square cut reinforcing steel bar ends. The CC coupler develops the full ACI 318 Type 2 requirement in compression for grades 60,75 and 80 rebar.

Features and Benefits

- Can be installed on first bar prior to second bar
- Fast - one person installation
- Requires only a lightweight ratchet to install
- Self supporting, no need to tack weld
- Used on hoop and stirrup locations
- Inspection holes at bar end location
- Removable and reusable

Part Number	US Rebar Size	Metric Rebar Size	Canada Rebar Size	L1 (in)	L1 (mm)	D1 (in)	D1 (mm)	Weight (lbs)	Weight (kg)
